

# Monitor and manage your animals on the go with

## Kon-Track

Our new digital tracking system made for Wildlife Conservancies and Cattle Farmers

### About Kon-Track

Designed by Konand Technologies for those seeking to take their farm with them and check on operations anywhere, anytime, and assist in decision making with the help of real data and insights.

### Features

- ✓ Digitalised Paddocks that shows what is happening with your animals.
- ✓ Gives insightful data on your animals and allows you to set alerts.
- ✓ Uses grazing patterns to help you redesign your paddock layout,
- ✓ Gives alerts for when your animals escape from paddocks or the geo-fence.

### Available Packages

Kon-Track comes in various packages to suit the size of your operation. Contact us for more information.
